

## Device and Connectivity Tab

A new tab has been added to Infinite Campus that captures the Device and Connectivity questions from the OSY Device and Access Form.

The screenshot shows the Infinite Campus interface. At the top, there is a header with the Infinite Campus logo and 'District Edition'. Below the header, there is a search bar and a navigation menu. The 'Device and Connectivity' tab is highlighted in red. The tab contains two sections: 'Access to Devices' and 'Enough Devices'. The 'Access to Devices' section has a checked checkbox for 'Access to Devices' and a checked checkbox for 'Internet Access'. The 'Enough Devices' section has a checked checkbox. There are also 'Save' and 'Delete All' buttons. Red circles with numbers 1, 2, 3, and 4 are placed over the 'Device and Connectivity' tab, the 'Save' button, the 'Delete All' button, and the 'Privacy' tab respectively.

To access and modify the the fields on this tab, do the following:

1. Query for a student.
2. Go to *Index > Student Information > General*.
3. Click on the tab *Devices and Connectivity*.
4. If the answer to the questions is *Yes*, check the appropriate checkbox. If the answer is *No*, then leave the checkbox blank.
5. When done, click on the *Save* button to save the data.
6. If you need to remove ALL the checkboxes, then you may use the *Delete All* button to accomplish this.
